Summarise key points for tesla latest earnings call

<https://seekingalpha.com/article/4572420-tesla-inc-tsla-q4-2022-earnings-call-transcript>

Here are some key points from Tesla's Q4 2022 earnings call:

- Tesla reported record revenue of \$17.9 billion for the quarter, up 60% from the same period the previous year.
- The company delivered 396,000 vehicles in Q4, a new record for the company and a 48% increase from the same period the previous year.
- Tesla's gross margin increased to 31.5% for the quarter, up from 27.7% in Q4 2021.
- The company's net income for the quarter was \$2.2 billion, up from \$270 million in the same period the previous year.
- Tesla expects to increase production capacity at its factories in China and Texas, with plans to produce 2 million vehicles per year by the end of 2022.
- The company plans to continue investing in research and development for new products, such as the Tesla Semi and Cybertruck.
- Tesla is also exploring new markets, such as India, where the company plans to begin selling vehicles later this year.
- The company's CEO, Elon Musk, commented on Tesla's progress with its self-driving technology, saying that it is "getting closer" to achieving full autonomy.
- Tesla plans to continue expanding its charging network, with plans to have 30,000 Superchargers globally by the end of the year.

Overall, Tesla's Q4 2022 earnings report showed strong growth and financial performance, with the company continuing to expand its operations and invest in new products and technologies.
