Summary

Forex and CFDs on Stocks, Cryptocurrencies and Indexes are the core of KTM's business.

Regulated by multiple high profile jurisdictions (FCA, DMCC & FSC), KTM signifies accountability at providing a regulated access to financial markets. KTM International is headquartered in London.

⚠ Risk Warning: CFDs are complex instruments and are usually traded with leverage, which significantly increases the chances of losing money. At the time of the review 71% of retail investor accounts were losing money when trading CFDs with this provider. It's your responsibility to understand the inner workings of CFD instruments and understand the underlying risks.

Overall★★★★☆

Pros

- Prompt Account Opening & D/W
- Flexible Leverage
- Real ECN great for EA Trading

Cons

- Limited # of trading instruments
- Stock, Index, Crypto, Commodities trading Limited to CFDs
